Global Parameters BPO Services Overview

BPO – Business Process Outsourcing

➤ ***BPO – Business Process Outsourcing***

- BPO is simply defined as the shifting of primarily non-core business processes and functions offshore in an effort to achieve cost reductions and improve process level efficiencies and effectiveness.
- The right BPO company partner allows its clients to focus their precious resources on core business, and have their non-core processes and functions performed by the BPO company's highly qualified offshore workforce, achieving client objectives.

➤ ***Global Parameters is the right BPO company***

- Global Parameters BPO achieves its clients objectives by providing them with operational efficiencies and substantial cost reductions of 30-60% on BPO processes and functions outsourced. Following are just some of the BPO services we offer

Global Parameters – BPO Services

Comprehensive Payroll Processing, Payroll & Employee Benefit Administration

- *Streamline and standardize payroll practices keeping your current payroll cycles.*
- *Compliant with all local, state, and federal payroll tax and related cost data tracking and reporting requirements*
